PROFESSIONAL SUMMARY

BCA graduate and backend-focused full-stack developer with hands-on experience building scalable real-time applications using Node.js, React, PostgreSQL, and Docker. Experienced in WebSockets, JWT authentication systems, and AWS deployment using ECS, ECR, and ALB. Passionate about backend engineering, system design, and distributed applications.

TECHNICAL SKILLS

Languages	JavaScript, Python
Backend	Node.js, Express.js, Django, Async Programming, API Design
Frontend	React.js, HTML5, CSS3
Databases	PostgreSQL, Prisma ORM, Database Schema Design
Cloud / DevOps	AWS ECS, ECR, ALB, Docker-based Deployment
Real-Time	WebSockets (ws library), Yjs (CRDT sync), Monaco Editor
Auth & Security	JWT, OTP Verification, Nodemailer
Tools & APIs	Git, GitHub, REST APIs

PROJECTS

AI Resume Builder Platform [\[GitHub \]](#)

- ▶ Built a full-stack AI-powered resume builder using the Gemini 2.5 API for intelligent resume generation.
- ▶ Designed and implemented scalable backend APIs, a secure authentication system, and PDF resume upload functionality.
- ▶ Containerised with Docker and deployed to AWS using ECS, ECR, and an Application Load Balancer; application is live via ALB endpoint.

Real-Time Sports Match Update Platform [\[GitHub \]](#)

- ▶ Built REST APIs and a WebSocket (ws) backend supporting concurrent live score updates and real-time event broadcasting for cricket and football.
- ▶ Engineered match state management to handle multiple simultaneous connections and high-frequency score events efficiently.
- ▶ Backend-focused project — API and WebSocket layer only.

Collaborative Real-Time Editor [\[GitHub \]](#)

- ▶ Built a Google Docs-style collaborative editor using Monaco Editor, WebSockets, and Yjs (CRDT-based sync).
- ▶ Enabled multi-user real-time document synchronisation with connected-user visibility and conflict-free concurrent edits.

Full Authentication System [\[GitHub \]](#)

- ▶ Developed a complete authentication flow covering signup, login, logout, forgot password, and email-based OTP verification.
- ▶ Integrated Nodemailer for OTP delivery and implemented JWT-based authentication for secure session management.

Django Blog Application [\[GitHub \]](#)

- ▶ Built a functional blog application using Django — covering models, views, templates, and the Django ORM.
- ▶ Demonstrates MVC architecture understanding and Python/Django backend fundamentals.

EXPERIENCE

Django Intern — NetSet Software Solutions, Mohali

1 Month

- ▶ Worked on Django backend development and web application fundamentals in a professional team environment.
- ▶ Gained exposure to real-world development workflows, code review practices, and production codebase structure.

EDUCATION

Bachelor of Computer Applications (BCA)

Graduated: June 2025

Amity University Mohali • CGPA: 7.5 / 10

12th Standard — Commerce Stream

Score: 91%

Central Board of Secondary Education (CBSE) • 2022

ADDITIONAL INFORMATION

- ▶ Interests: Backend Engineering, Real-Time Systems, Distributed Applications, System Design.
- ▶ Open Source: All personal projects publicly available at github.com/ishanhanda11.
- ▶ Languages: English — PTE Academic Score: 90/90; Hindi (native), Punjabi (native).
